

## We need your input!

The management of Michigan's transportation, water, utilities, and communications assets has become increasingly urgent as our state's vital infrastructure is aging and deteriorating. A series of Regional Asset Management Communications and Coordination Summits are being held across the state to facilitate collaborative, coordinated and consistent Infrastructure Asset Management in Michigan. The summits are designed to:

- Represent all stakeholders who use and manage Michigan's infrastructure;
- Remove barriers that hinder efficient and effective infrastructure asset management; and
- Align standards and resources cross all infrastructure assets transportation, water, utilities and communications.

Your participation in the Communication and Collaboration summits gives YOU an opportunity to share your perspective, offer ideas, and voice concerns on this important topic.

For your convenience EMCOG has scheduled two (2) opportunities for you to attend a summit in the East Central MI Prosperity Region 5:

- May 30, 2019: 9:00 am to 11:00 am (registration begins at 8:30 am) at the Grace A. Dow Memorial Library in Midland, and
- May 30, 2019: 2:00 pm to 4:30 pm (registration begins at 1:30 pm) at the Pere Marquette District Library in Clare.

Please click on the link <u>https://www.michigan.gov/mic/</u> for details on the Regional Asset Management Summits along with registration information and locations, the program outline and other information including the history and current status of the Michigan Infrastructure Council MIC), the Water Asset Management Council (WAMC)and the Transportation Asset Management Council (TAMC).

Please contact Jane Fitzpatrick at EMCOG if you have any questions and also to register for the May 30<sup>th</sup> meetings in Midland and Clare: <u>jfitzpatrick@emcog.org</u>. Seating is limited so please register at your earliest convenience.
